

Interactions and Public Initiatives

- **Sports for Peace:** Cricket & Football tournaments
- **Exchange tours** for school students from Jammu-Kashmir & Northeast
- **Public speaking about J&K** by Aseem Volunteers
- **Kashmir Study Group**

For fulfilling Aseem's guiding principals of Communication, Trust and Development, mutual awareness between border population and all of us is necessary. Aseem conducts various exposure programs such as Sport tournaments & exchange tours for schoolchildren. Our volunteers make use of different public speaking opportunities to spread this message.

Social Entrepreneurship Development

- **Koshur Krunch** (apple-walnut cookies)
- **Olive Green Cookies** (a project run for War widows)
- **Tamul plates & cutlery** – Eco-friendly dinnerware
- Assamese **handwoven Dupattas**
- **Bakeries at many locations** across Jammu & Kashmir Kalakote, Uri, Poonch, Gargote, Akhnoor &
- **Dry apples, Caramelized Walnuts, Saffron**
- **Astro-tourism, Woolen Products** by women in Ladakh

Youth & women from remote areas are always in search of opportunities to apply their talent. We give them a platform to operate different social enterprises, which manufacture products such as Cookies, Caramelized Walnuts, Dry Apples, (All from J&K), woolen socks and winterwear (Ladakh), handwoven dupattas & eco-friendly Tamul cutlery (Assam). Our bakeries in J&K also sell products such as cakes, pastries etc. for local markets. We also operate Astronomy & Skygazing sessions at Ladakh.

National Integration Park, Casuarina, Bor

To make our citizen aware about the real heroes of India, National Integration Park is built as a memorial to the Param Vir chakra awardees. An interactive card game featuring Param Vir chakra and Ashok Chakra recipients and Android apps in Marathi & English are conceptualized & designed. A monthly e-magazine sharing the brighter news from border regions is published. Maqbool Sherwani Library has the resources for a detailed scholarly research about the problems faced by the border area population.

Education & Skill Development

- Home for Jammu Kashmiri Friends
- Abhilasha – Career guidance through videoconferencing
- Science Park at Leh, Science clubs & quiz contests
- Entrepreneurship Development, Vocational Training
- Teacher training – Train the Trainers
- Super-40 – training for NDA, CDS, AFCAT aspirants
- IT training & Computer coaching centres

Science Park, Shey, Leh

Project Abhilasha's Reach

Education plays an important part in development of children, who eventually become an important part of the society as young citizen of India. We run a hostel in Pune for children from border areas & take responsibility for their schooling & college education. We also work in betterment of school education through skill development workshops, teacher training workshops & IT training to all ages. We have also established a Science Park at Leh, which aims to promote interactive science education through fun learning & activities.

Environment

- Solar Micro-grids for sustainable & reliable power supply in remote border regions
- Water ATMs for clean drinking water
- Anti-garbage and anti-pollution drive in Ladakh
- Envisioning Majuli – blueprint for saving the diverse culture & ecology on the largest river island on earth

Health

- Medical & Dental Camps
- Second opinion health centre
- Veterinary Camps

Sustainable energy & better healthcare facilities are key requirements for citizen in rural border areas. Clean drinking water is also important to avoid health hazards, especially in mountain areas. Avoiding pollution & use of plastic is another target area for us, especially at Leh & Ladakh, where thousands of tourists visit each year. We have different initiatives for all mentioned categories, the notable being installation of Off-grid micro solar energy in remote village of Jammu & Kashmir.
